

**Reclaimed Wood From Brazil Is
Where
"Profitable"
Meets
"The Right Thing To Do"**

**Across The Ocean Ltda in Brazil and Norfolk
Group in the US have created a logistics
pipeline to seamlessly deliver it to you**

**OUR BUSINESS IS TO PROVIDE THE BEST
RECLAIMED WOOD FROM BRAZIL**

WE EXPORT THE HIGHEST QUALITY BRAZILIAN RECLAIMED WOOD

We have been exporting reclaimed wood from Brazil for 12 years. Always looking for the best buildings in the Brazilian countryside, we are proud to say that we get only the best quality of wood for our clients.

Our reclaimed wood comes from buildings that range from 80 to 120 years old. The quality and strength has been proven over all these years. In addition, it is a recycled material. We do not cut, we recycle!

Countryside constructions made with high quality wood are hard to find, but we find it and prepare it for you!

OUR EXPERTISE

We find the best buildings with high-quality wood, such as Peroba Rosa, Canafístula, and Ipe.

OUR MISSION

Taking care of nature. We do not cut trees but select a superior quality wood from old buildings and prepare it for a new purpose.

OUR OPERATION

Prepare the wood to load the Containers and ship it to its new destiny.

OUR GREEN BUSINESS PROCESS

WE FIND THE BUILDINGS

ALL BUILDINGS ARE ANALYZED AND NO LONGER SERVE THE SURROUNDING COMMUNITY, THEIR ORIGINAL PURPOSE

WE DECONSTRUCT THE BUILDINGS

WE TRAIN THE LOCAL LABOR TO WORK WITH OUR TEAM

WE ORGANIZE AND EXPORT THE RECLAIMED WOOD

AT THE PORT THE LOCAL LABOR WORKS WITH OUR TEAM TO LOAD THE CONTAINERS

OUR BRAZILIAN
RECLAIMED WOOD AT
YOUR FACILITY CAN
MAKE A DIFFERENCE
FOR YOUR BUSINESS

ABOUT PEROBA ROSA

PROTECTION

This is an specie of wood that cannot be cutted or planted in order to be cutted. Therefore, the only way to obtain it is througout dismantelying old constructions.

WHAT MAKES IT SO SPECIAL?

Traces of time, sun, wind, rain, gives the peroba a rustic and ellegante appearance that brings up any project that uses it. Also, depending how it is worked, it can be an extremelly modern wood, with lots of history.

The wood has already proven it strenght during the years. Most buildings has between 80 to 120 years old.

ABOUT OUR VISION

PURPOSE

We encourage a green business with social impact and aim to be working side by side with a company that are interested in a high end reclaimed wood. That way we can offer something exclusive to the market

PROTECTING THE RAINFOREST

20%

in 20 years

According to IBGE (Brazilian Institute of Statistics and Geography) approximately 20% of the Amazon rainforest was lost in the past 20 years. **Working with reclaimed wood not only helps to protect our home planet, but send an important message to the market, that you care.**

WE HAVE ALL LICENSES TO EXPORT RECLAIMED WOOD

here are some examples:

IBAMA APPROVAL

In every exportation process the IBAMA (Brazilian Institute of Environment and Natural Resources) issue an approval document giving green light for our wood to be exported.

PHYTOSANITARY CERTIFICATE

The MAPA (Agriculture Ministry) issue this document approving our wood to leave Brazil endorsing that we have proceed with all fumigation process.

ORIGIN CERTIFICATE

We always issue this document to certify to our clients that our wood is reclaimed and that it is brazilian.
